

Gathertown Uploading Instructions

Your team #'s can be found above the poster boards. This is what the platform looks like.

One member from each team has been given EDITING privileges. You can find that person on the spreadsheet that contains your team number as well as which session you will be presenting at. This individual will be responsible for uploading a figure of your poster to your team's board in gathertown.

1. Edit gathertown via mapmaker:
https://gather.town/mapmaker/R7wE4bf58H8xCWht/elec576_poster
2. select the poster you want to edit and you should be able to see 'object details' in the side bar

3. Then, upload the figure of the team's poster as BOTH the IMAGE* and the PREVIEW IMAGE*. The figure of your poster (png, jpeg) should be high resolution, but size should not matter. You can save your pdf as figure or take a screenshot.
4. Finally, CLICK SAVE at the top!!
5. To check that you can see your poster on the poster platform sign on and walk to your poster. You can move your avatar around and press 'x' to interact with the poster to make sure the preview and actual image are correct. If you don't upload correctly, you will see a poster from last year's session. So you should try again.
https://gather.town/app/R7wE4bf58H8xCWht/elec576_poster
6. If you experience any issues with this, please email Brendan Celii (celiibrendan@gmail.com) or Matthew Parker for assistance (mcp12@rice.edu). Also let them know if you can't edit the gathertown, so they can figure out if they need to update the email used. It should work because emails used were rice netid emails.
